

SECURITY & UNIFORMS & CAMO & SPECIAL FABRICS

Fabric description	Bastretch 205	RIPSTOP 210
Fibre content	40/30/30 co/PES/lycra	55/45 PES/cotton
Finished weight	205 g/m ²	210 g/m ²
Weave	twill 2/1	ripstop, 8x8 mm grid
Width	140 cm	150 cm
Physical performance	warp // weft	warp // weft
Yarn count (Ne)	34 tex // 165D tex	20 // 20
Sett (threads / inch)	122 // 72	110 // 58
Tensile strength (N) warp//weft	700 // 350	800 // 600
Shrinkage after 5 washes <small>(6 x 60° C Wash + 177° C Press)</small>	3% // 3%	3% // 3%
Abrasion resistance (Martindale)	>25.000	>15.000
Colour performance: scale (1-5)	CC // CS	CC // CS
Light Fastness: scale (1-8)	4	4
Washing	4 // 4	4 // 3-4
Perspiration acid // alkali	4 // 4	4 // 3-4
Rubbing dry	4	4
Rubbing wet	3-4	3
Dry cleaning: (colour change)	4	4

Note: values are solely indicative and may vary

Finishing: mercerized, sanforized non-shrink

Care instructions:     

Minimum quantity from stock: 1 roll (usually 60 – 90 m)

Sampling: upto 7 m with price surcharge, small cuttings free of charge

Delivery: the same day from our warehouse by ordering before noon

Corporate colours for production: min 3.000 m / shade per customer request

Additional brand finishes: Proban, Pyrovatex, Teflon, Negastat, Cordura, etc.

Special kind of fabrics: min 7.000 m for greige production, delivery 3 months

LARGE ASSORTMENT OF WW AND PW FABRICS IN RANGE:

- ❶ PURE COTTON WORK WEAR FABRICS
- ❷ POLYCOTTON & COTTON RICH WORK WEAR FABRICS
- ❸ HEALTHCARE, FOOD PROCESSING, HOTELS, CATERING
- ❹ SECURITY, UNIFORMS, SPECIAL FABRICS, CAMOUFLAGE
- ❺ FLAME multi PRO & HIGH VISIBLE, REFLECTIVE FABRICS

Key factors to choose right fabrics for your projects :

expertise

a professional advice about fabrics, over 20 years experience in textile branche
choice

a wide range of fabrics for image/workwear, protectivewear and casual apparel
performance

an optimum quality, comfort, durability and consistency of performance

safety

a superior protectivewear fabrics give advanced levels of protection

quality control

all suppliers fully accredited to ISO and EN Certification, Ökotex Standard 100

consistency

all vertically integrated textile mills only, Test monitor, Inspection reports

record keeping

each and every roll has his own unique bar code enable to control the quality

service

a sales, customer / technical service and marketing, including relevant backselling

stock

a large warehouse (> 5.000 sqm) with more than 1.000.000 meters of fabrics

logistics

a dedicated international distribution and flexible delivery service within 24 hours

innovation

an on-going programme of sourcing cost effective fabrics and new developments

customized product

an opportunity to develop all sorts of fabrics / shades per specific requirements

competitive price

if the exact same item by competitor cheaper, we are ready to meet the same

„Easier said than done.“ Let's try large assortment
of fabrics and reliable service.
