

CORPORATE WEAR fabrics

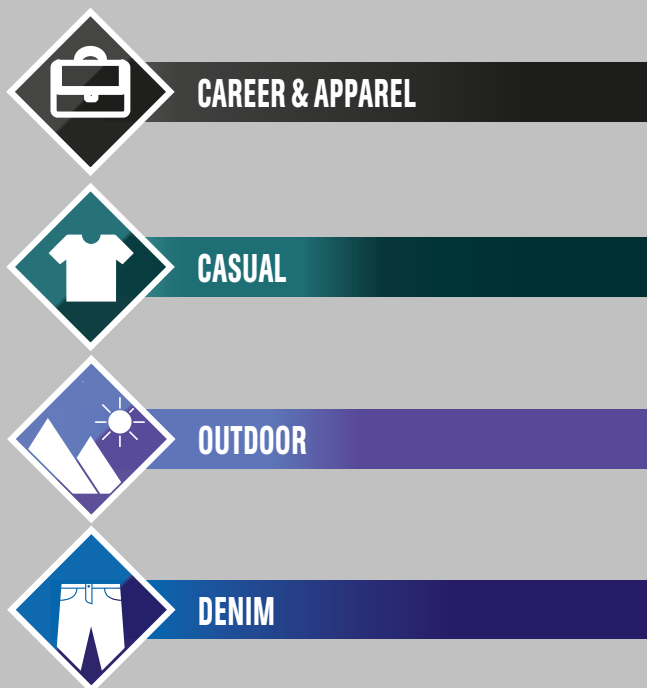

KLOPMAN
INTERNATIONAL

QUALITY THAT WORKS

QUALITY MEETS STYLE

Klopman Corporatewear fabrics emphasise comfort and personal expression over, formality and conformity. From denim to outdoor fabrics, from apparel to casual workfashion fabrics, our collection is specially developed to meet the fashion needs in terms of comfort, elasticity and garment design but in line with the higher standards required for corporate clothing.

Our collection of casual and denim fabrics ensure durability and colour consistency, giving clothing manufacturers the opportunity to create innovative designs with an uncompromising streetwear look! Great comfort with long-lasting performance is our promise to the market.

BENEFITS FOR THE GARMENT MAKER

Expertise and credibility

Klopman, with nearly 50 years of experience as a fabric manufacturer, is well-known in the industry for offering reliability and colour consistency.

Wide variety

The wide collection of Klopman fabrics are conceived for different purposes and occasions.

Fabric consistency & continuity

Integrated manufacturing and quality control from fibre to finishing, guarantees maximum consistency and continuity.

Quality control

3,800 process controls continuously monitored using advanced manufacturing technology.

Customer Service

Understanding customer needs to best serve the market is a fundamental tenet of our philosophy.

BENEFITS FOR THE WEARER

Comfort

Our fabrics combine soft touch with excellent air permeability and quick drying. They are all certified for skin friendliness by Oeko-Tex®.

All round performance

Outstanding quality and long-term durability thanks to the fibre quality, construction and blend.

Easy care

Fabrics offering easy care with excellent performance after repeated industrial or domestic washing.

Fashion look

A good quality fabric adds value to each garment communicating both wealth and style.

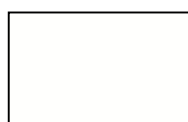

CAREER & APPAREL

Comfort meets longevity

Klopman's Careerwear high-quality fabrics have been developed to combine comfort, easy care and freedom of movement for the wearer. With excellent all round performance, including colour retention, our blended fabrics are designed to maintain a smart appearance over the garment life.

Klopman's Escalade and Lagonda stretch fabrics are certified for LYCRA®TOUGHMAX™ technology as well as COOLMAX® core technology. They contain INVISTA's LYCRA®T400® fibre allowing moisture to be drawn away from the skin to the outer surface of the fabric, where it evaporates. As a result, the wearer feels cooler and more comfortable, with no unpleasant wetness next to the skin.

OUTDOOR

Never stop exploring

Robust enough for any adventure, our fabric collection for outdoor activities keeps the wearer warm and dry. Laminated fabrics provide protection from wind and rain and prevent the penetration and absorption of water drops while allowing water vapour molecules to pass outwards through the membrane, ensuring wearer comfort throughout the working day. We also offer fabrics with the unique patented encapsulation technology of EPIC®, produced by Nextec, which delivers additional performance benefits in a single layer.

DENIM

When in doubt, wear denim

Klopman denim, the professional alternative to traditional cotton denim, offers a choice of intense colors and excellent performance even after repeated washing. Denim started out being worn by workers when both durability and comfort were needed. Our comfortable and stylish denim fabrics are well-known for long lasting performance. Klopman's denim fabrics are also available on request with recycled polyester for a greener choice.

BLEND	FINISH	AVAILABLE COLOURS
